

Biomarker & Drug Recommendation Report

Generated: 2026-02-14 12:37
Patient / Sample: Patient_001
Input VCF: sample.vcf

Summary

This report lists **0** identified biomarker(s) (variants matched to the knowledge graph) and recommended drugs from the KG OncoKB database for the affected genes. For clinical use only in discussion with the treating physician.

Identified Biomarkers (KG-Matched Variants)

Variant	Consequence	Gene ID	Biomarker	Dir	Adj. p-value	Log 2FC
No biomarkers identified in this sample.						

Recommended Drugs (from KG OncoKB)

Drugs associated with the biomarker genes above. Therapy selection must be made by the treating physician.

Gene	Drug	Class	OncoKB
-	Discuss with oncologist for biomarker...	-	-

Disclaimer

This report is for research and clinical discussion only. It does not constitute medical advice. Drug recommendations are from the KG OncoKB database and must be interpreted by a qualified physician.
